About two inches of snow fell Friday night, Oct. 6. A few of our neighbors indulged in sugar on snow.

Mrs. John Healy and Mrs. Winfield Pease called on old neighbors recently.

W. L. Archer of Rutland called on his aunt, Mrs. E. A. Morse, Monday.

Al Hill moved on Wednesday to Bridgewater.

Friday morning, as one of our neighbors was kindling the fire, his attention was called by his wife, who said, "something has just struck the house; go and see what it is," which he did. When he got out of doors he found a partridge disabled by contact with the house, but able to run. It was caught by the family cat and brought it in.

WOODSTOCK NEWS

In Honor of C. Columbus

The last legislature made October 12th a holiday, in an outburst of patriotic thankfulness, in honor of the discovery of the new world by Christopher Columbus, a Genoese sailor of alleged piratical tendencies who sailed and sailed and landed on one of the islands to the southeast of us—not at Hoboken, N. J., as the old song says. Woodstock observed the day, not by a complete suspension of business, but quietly, business houses reverently if not joyfully drawing their shades, while the post-office and drug stores kept holiday hours. People not familiar with the acts and resolves of the legislature discovered the cause of the Sunday-like stillness before the day was half over.

Electricity Starts a Blaze.

A small fire in the basement of W. J. Boyce & Co.'s store Friday evening, about 9 o'clock, had untold opportunities for trouble, but it was discovered in time and put out with chemical extinguishers.

The origin of the blaze was quite unusual, the trouble starting at the eavespost which runs along the edge of the roof in the rear of Boyce & Co.'s store. From a corner of the roof over the store a galvanized water conductor runs down the block, into a cellar window and through the wooden floor there into a well. A 2000 volt electric light wire which passes near the back of the block, had occasionally swung against the water conductor, wearing off the insulation, and weighted by the snow of that evening it remained in contact with the metal, leading it up with electricity until sparks began to fly and the basement filled with fire and smoke. Carroll Bennett first saw the fire and turned in an alarm. Before the blaze was extinguished it had singed a tank containing kerosene and some wooden ware in the basement was on fire.

Special Session of Windsor County Court.

Several cases were disposed of at a special session of Windsor county court held on Tuesday, when Judges Maxham and Buck heard pleas of guilty from respondents, who were sentenced as follows:

Barney Hogan, for assault upon Ed Adahed at Bethel, three to four months in the county jail.

James Varley, burglary at Chester, two to three years in state's prison.

In the case of Ernest Brothers of Bethel, for entering a room while intoxicated and taking a sum of money, the sentence, not less than eight or more than ten months in the county jail, was suspended, the respondent being placed in charge of the probation officer. Gladys Brothers, wife of Ernest, held as a witness, was discharged.

Petra Garcia, of Bethel, mother of four children; who has been out on bail since the last term of court, pleaded guilty to the charge of selling intoxicating liquor without a license. Sentenced to not less than ten or more than twelve months in the county jail. Sentence suspended and respondent placed in charge of the probation officer.

Dies of Infantile Paralysis.

Howard Winslow Townsend, 19 years old, son of Stephen Townsend, a former resident of this place, died at the home of his sister, Mrs. Charles R. Boyden, in Rutland Sunday afternoon, after only 60 hours' illness with acute infantile paralysis. He was taken violently ill Friday morning and grew steadily worse until death came.

No one knows where he contracted the disease of which there have been three cases and one other fatality in Rutland within a short time. Mr. Townsend was out Friday morning, but suffered intense pain that night. Sunday morning he became paralyzed below the waist and grew rapidly worse. He had an excellent physique and had been in good health all his life.

An autopsy was performed at the house Sunday evening by Dr. B. H. Stone and Dr. C. H. Beecher of Burlington.

The body was brought to Woodstock Monday by Mr. Townsend and Rev. W. H. Spence of Rutland for interment in Highland cemetery. Rev. Mr. Spence assisted by Rev. Benjamin Swift officiated at the burial service.

Howard Townsend passed his boyhood on the Townsend farm on the south road, going to Rutland with his father in May, 1910, where he had been employed as clerk in

the store of his brother-in-law, Charles R. Boyden.

He was a strong, rugged young man, and was very popular here and in Rutland, his death being a great sorrow to his family and to his relatives here.

"There is no possible theory as to the origin of the disease in this case," said Health Officer C. F. Ball of Rutland. "This is the third recent case in Rutland, and the second to result fatally. Another death has been reported at Manchester today, due to the disease, that of a young man, who also died after a short attack."

Smith, William Allen and John W. Spear jointly, George Williams, Joseph C. Enright and Gilbert A. Davis. By reason of an unfortunate investment the fund was reduced to \$1400, prior to the appointment of Mr. Enright. THE BUCK-HUNT TIMBER LANDS
AND MILLS OFFERED FOR
SALE.

In order to close the Mudgett estate, what is known as the Buck-Hunt Mills and timber lands are now offered for sale. They consist of sawing and dressing mills, and three to four thousand acres of timbered land, several hundred acres of which are heavily covered with old-growth virgin spruce.

This is very fine property for some enterprising concern to take up. The lands nearly all slope down toward the mills, which are situated upon the estate, and alongside the property runs the St. Johnsbury and Lake Champlain branch of the Boston & Maine Railroad, the mills being on a private siding.

The mills have been recently enlarged by the addition of a commodious dry kiln, equipped with an up-to-date, latest style Sturtevant blower. A new Berlin hardwood flooring machine has also recently been added to the equipment.

We understand that the property will be sold on the basis of \$2.00 for the hardwood and \$4.00 for the spruce stumpage, and that two other large timber properties in this county are also on the market. The facts concerning any of them can be obtained by addressing Carroll S. Page, Treasurer, Hyde Park Lumber Company, Hyde Park, Vermont.—News and Citizen.
